

Shipment Tracking – Greater Visibility in an Instant

APL's online tracking tool offers visible business benefits by giving you more details in a single location.

We've enhanced our online tracking tool to give you more shipment details in less time. Comprehensive shipment information is now categorized into 6 tabs to eliminate cumbersome scrolling.

Tracking

Track your shipment by keying in your Bill of Lading (BL) number or container number into the "Tracking" box at www.apl.com.

You'll get a screen containing 6 categories of information:

Tracking: BL

BL Number: 050190701

If you do not have Web access, you may track your shipments by sending an e-mail with your BL or container number in the subject line to track@apl.com. In minutes, you'll receive an automated e-mail with the latest shipment details.

The APL Advantage

APL's enhanced tracking tool allows you to gain greater visibility with your shipments while improving your productivity:

- Broader coverage of shipment information allows you to make timely, informed decisions
- In-depth details of your shipments at individual container level enable you to manage your supply chain more proactively
- Visibility is made easier as shipment information is neatly organized into 6 different tabs
- Allows sharing of real-time information with key customers and suppliers without compromising data security
- Empowers you to respond instantly to changing production or delivery requirements

So, track online at www.apl.com today!
