

Sourced from all over the world.
Enjoyed by gamers everywhere.

→ A leading global computer manufacturer with a direct-to-consumer business model needs to fulfill thousands of customized orders every day. Therefore, it is vital to have quick and cost-efficient flow of inventory from production centers in Asia to inland logistics facilities in the U.S.

→ With a thorough understanding of the customer's needs, APL is able to tailor a fast and flexible intermodal transportation solution. By using APL's state-of-the-art container terminal in San Pedro, combined with the partnerships that APL has with the best land-based transportation networks, products are able to move quickly and seamlessly to inland destinations.

→ As a result, the customer has been able to achieve faster turnaround for its orders and increase its market share. And around the world, online gaming enthusiasts can pit their skills against other players. Now, that's APL moving business forward.
