

Project cargo has its own unique requirements and can be especially challenging. At APL, we are ready to meet that challenge. With more than 150 years of experience shipping all types of cargo, we offer the expertise and knowledge to help you move yours safely and efficiently. That's APL moving your business forward.

## One Stop Shopping

Staffed by specially-trained industry professionals, APL's dedicated Special Cargo Desk understands your needs and attends to every detail in your transactions for over-sized, special and project cargo.

To get a quote, book your cargo and/or arrange equipment, all you need is a toll-free call to the Special Cargo Desk. We'll ask a few specific questions about your shipment, your shipment schedule, and any special handling needs.

Having the following information available during the call will allow us to serve you faster:

- Dimensions of the cargo, including packaging and skidding (length x width x height)
- Cargo weight, including packaging and skidding
- Center of gravity information
- Weight distribution
- Lifting and lashing points (cargo securing points)

## The APL Advantage

### Comprehensive Service Network

- APL's extensive intermodal network connects you to just about anywhere in the world
- Global availability of OOG (Out Of Gauge) and special cargo handling facilities, with in-location expertise

### Consistent & Reliable Schedules

- Sailing schedules with weekly sailings and fixed port rotations simplify your planning
- APL's highly-rated schedule reliability means you can be assured of on-time delivery
- Online shipment visibility tools allow you to track and monitor the status of your cargo at each step of its way

### Flexible Delivery Solutions

- Delivery options are crafted to suit your varied needs, including door-to-door service
- Ship in either unitized or containerized units, for your convenience
- Choose to ship your cargo as manufactured or produced
- No need to consolidate entire project into a single shipment
- Different pickup and delivery locations for the same project possible
