

ESX-East Coast Savannah Express (Eastbound)

THE APL ADVANTAGE

- Direct link between the manufacturing areas of Central and Southern China, including a port call at Ningbo, and four U.S. East Coast ports
- Adds a new direct call at Jacksonville in addition to Savannah increasing the discharge options for the Southeastern United States
- 22-day transit from Hong Kong to Jacksonville and just 25 days from Shanghai
- Increases APL's direct all-water service options to the U.S. East Coast by augmenting the existing APX, NYX and SZX services
