

Shipping your cargo from Asia to North America can get complicated, particularly to inland destinations via rail.

APL knows that timely delivery of cargo is critical to your business. So, we eliminate inefficiencies wherever possible.

That's our commitment.

As a result, APL offers some of the fastest and most dependable transits to inland destinations across North America, including Memphis, Chicago and New York.

The *LINERTRAIN* Advantage

- Vessel stowage in Asia is planned with destinations in mind to facilitate quick cargo transfers from ship to rail
- APL-dedicated trains are loaded on-dock at our state-of-the-art terminals in Los Angeles and Seattle, avoiding third-party delays or transit delays in moving cargo to public rail terminals
- Rail departures are coordinated with vessel arrivals and cargo priorities to ensure that trains are loaded rapidly
- With large and dedicated trains, stops along the route are reduced, thereby increasing shipment speed and reliability
- Everyone at APL is on track in providing the best intermodal services to major inland destinations in North America
