“ We are a small company. When we ship one container we ship almost one month of production. If we cannot sell the goods at destination because they are damaged, we absolutely need to get our compensation the soonest possible, in order to keep our company alive! Our cash flow is not strong enough to support the usual legal procedures! ”

“ As an international company, we ship goods to lot of destinations including unsafe ones. Some ports and roads are not safe enough and we used to face many robberies. Now we have decided to protect our cargo value. A small price to have a complete peace of mind! ”
