# SMART DRY CONTAINER

## CARGO TRACKING AND CONTROL

We understand how critical it is to monitor the conditions and status of your cargo during the whole transport. Thanks to SMART dry container, enjoy an end-to-end visibility and enhanced management of your shipment.

### YOUR BENEFITS

#### ADVANCED VISIBILITY

Provide near real-time data that is accessible anywhere and anytime, giving you better door-to-door visibility.

#### CARGO QUALITY AND SECURITY

Monitor GPS positions, door openings, movements, shocks and external temperatures.

#### EXCEPTION MANAGEMENT

Create personalized milestones, offering contextualized data and alerts.

#### SUPPLY CHAIN OPTIMIZATION

Identify anomalies in your supply chain, allowing you to put corrective measures in place to optimize your business and reduce operating costs.

### HOW DOES IT WORK?

- Next-generation connectivity for seamless tracking of your cargo anywhere, anytime.

- A user-friendly hub allows efficient analytics, easy setup of alerts and personalized notifications.

- By request at the time of booking, CMA CGM Group can supply empty containers equipped with TRAXENS technology without impacting your business.
